

## Metadata for Islands Trust Cadastre

<b>Attribute</b>	<b>Description</b>
Title	Islands Trust cadastre
Description	Lot boundaries and legal parcel divisions
Produced By	Islands Trust
Data Type	Vector
Projection	Universal Transverse Mercator, Zone 10
Datum	North American Datum 1983
Starting Product and Date	Conversion of cadastral linework from paper maps to digital form began mid-90's.
Original Data Source	Various paper and mylar maps and digital files
Original Data Scale	Various
Updates/History/Corrections	Under constant revision and upgrade. Currently fully attributed polygon data.
Accuracy	Various. Satisfactory for planning purposes only. Site specific surveys conducted when necessary.
Warning/Data Limitations	This cadastral data has been compiled over the years from a variety of paper and digital sources. The accuracy ranges greatly and should not be used for any other purpose than as a general guideline.
Comments	An intensive realignment campaign is being organized to update the positional accuracy. Recent advances in GPS and GIS technology have enabled efficient registration of the cadastral fabric to real world coordinates.
