Write your message: Regarding STVs in cottages, I think allowing STVs will increase tourism on the island and also create jobs in the way of daily housekeeping and cottage maintenance for cottages owned by non island residents. I realize this may affect Blue Vista, Mayne Inn etc but believe the net gain to the island outweighs the negative effects. We have just been through a huge downturn in the economy on Mayne after 2008 U.S. crash. I'm hoping residents now realize that we need to embrace tourism to survive and thrive. The people who don't want change seem to make the most noise but stagnation and backwards thinking will ultimately kill the islands. Also we do need to open up commercial expansion. Amenities make the island more appealing and livable for tourists and potential residents. Thank you.
