Dear Keats Island Residents and Property Owners:

Re: District Lot 696 – Keats Island rezoning application GM-RZ-2004.1 (Convention of Baptist Churches of British Columbia)

The Gambier Island Local Trust Committee (LTC) is considering rezoning application GM-RZ-2004.1 (DL 696 Keats Island). Due to the complexity of the rezoning application; recent amendments to the proposed bylaw and the number of years that the file has been under consideration, the LTC requested planning staff distribute a 'Question and Answer' document to all residents and property owners on Keats Island. This document is intended to assist individuals in determining if their interests are affected by recent changes to Proposed Bylaw No. 143 and summarize the next steps in the legislative review process. The bylaw is currently at first reading and a public hearing may be scheduled in early 2018.

Please read through the attached document and contact our office if you have any questions about this rezoning application on Keats Island.

Sincerely,

Susan Morrison
Chair, Gambier Island Local Trust Committee
