## **South Pender Island Local Trust Committee Road Maintenance Issues Update**

This notice is to advise you on the issue regarding the DIP sign, located on Canal Road.

Trustee Steve Wright has an update for you, please see below:

“The last word we received from Ministry of Transportation and Infrastructure (MOTI), in response to concerns about the section of Canal Road slipping towards the sea, was that funding for a geotechnical study of the area was being sought. As of today, there is no update on when the Geotech will be available, but the plan is to drill some holes throughout the area to obtain core samples of the type and composition of the underlying soils. The actual investigation will occur mostly in the MOTI office. Once that is determined, a decision will be made on how best to remedy the problem. I will post more updates as I receive them.”

If you have any questions or concerns please contact:
