

These islands are famous for their tranquil, beautiful scenery, abundant wildlife and rural nature.

Please help us protect this special environment

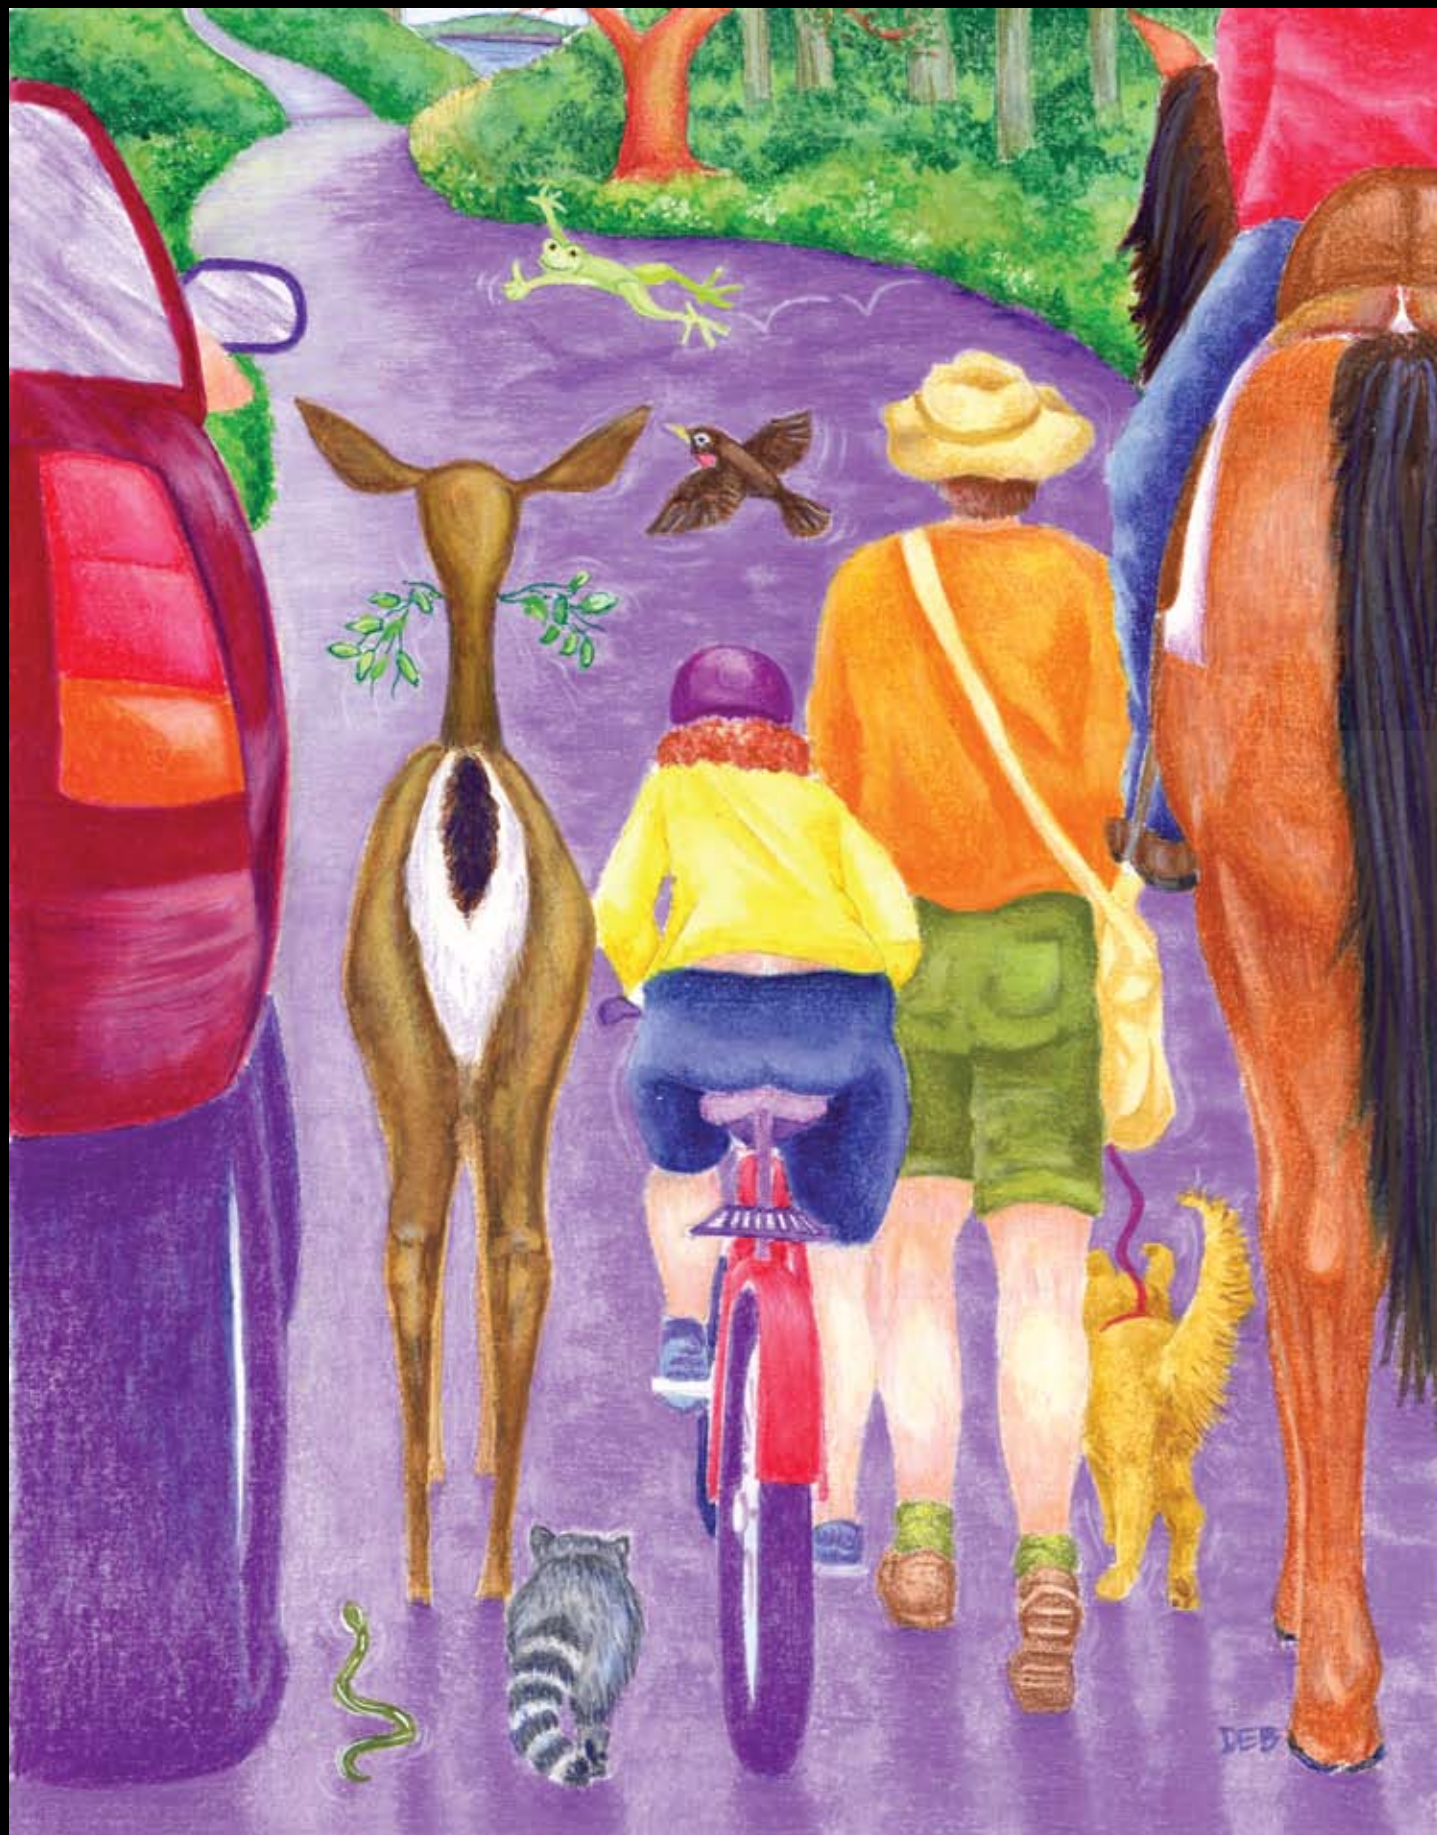

while you enjoy your stay.

Cars, pedestrians, cyclists, horses and wildlife share our narrow roads — be courteous and use caution.

Water is in short supply in the summer — use sparingly.

Garbage disposal is an issue. Please recycle and don't litter.

Our islands are home to an exceptional diversity of birds, fish, intertidal life, wildlife and plants. Please help us keep it that way.

One for all, all for one ... by Debbie Bowles, Mayne Island
