ISLANDS TRUST COUNCIL on behalf
of Trust Area Local Trust Committees
("Islands Trust")
regarding

LAND-USE CONSULTATION FOR RADIO COMMUNICATION UTILITIES
within the Islands Trust Area

WHEREAS, section 8.1 of the *Islands Trust Act* authorizes the Islands Trust Council to enter into agreements with the Government of Canada on behalf of one or more local trust committees to coordinate activities within the Islands Trust Area to achieve the legislated object of the *Islands Trust Act*... "to preserve and protect the Trust Area and its unique amenities and environment for the benefit of the residents of the Trust Area and of the Province generally, in cooperation with municipalities, regional districts, improvement districts, other persons and organizations and the government of the Province",

WHEREAS, a local trust committee is responsible for regulating the development and use of land within a local trust area;

WHEREAS, Section 5 of the *Radiocommunications Act* defines the Minister's powers, the Minister may, (i) approve each site on which radio apparatus, including antenna systems, may be located and approve the erection of all masts, towers and other antenna-supporting structures;

WHEREAS, Industry Canada recognizes that land-use authorities may have an interest in the location of significant antenna structures proposed within their jurisdiction and may have concerns that should be considered in the exercise of authority under the *Radiocommunications Act*,

AND WHEREAS, the Islands Trust consider significant antenna structures as being any structure over 25 metres measured from the ground level.

NOW THEREFORE, both parties agree to implement the following interagency consultation procedures regarding applications to Industry Canada for the site-specific authorization of significant antenna structures within the Islands Trust Area:

1.0 NOTIFICATION

- 1.1 Either party will use best efforts to notify the other party of an applicant's expression of interest to build or modify a significant antenna structure.
- 1.2 Industry Canada will use best efforts to advise applicants that they are required to notify and consult with the appropriate local trust committee to address local land-use concerns as explained in Client procedure Circular, CPC-2-0-03.

2.0 APPLICANT/ LOCAL TRUST COMMITTEE CONSULTATION

- 2.1 Local trust committees will make their views known to both the applicant and Industry Canada within 60 days of receiving an application unless otherwise mutually agreed by the local trust committee and the applicant.
- 2.2 The local trust committee will use its best efforts to consult with the applicant and to consider requirements of the applicant.

When Industry Canada becomes aware of a local trust committee's objection to a site-specific significant antenna structure, consideration to issue a license will be delayed for up to 60 days or longer if otherwise mutually agreed by the local trust committees and the applicant so consultations can occur between the applicant and the local trust committee.

3.0 APPLICATION APPROVAL

- 3.1 Industry Canada does not play a direct role in land-use consultations. This responsibility remains with the applicant and the local trust committee to work toward a mutually acceptable agreement.
- 3.2 Industry Canada will use best efforts to notify a local trust committee of its intent to process an application indicating the content of the applicant's signed land-use consultation attestation.
- 3.3 Industry Canada, upon the request of a local trust committee, will meet with that local trust committee to hear its concerns before final approval of a license.

4.0 CONDITIONS

- 4.1 Nothing in this agreement shall be construed to fetter the legislative or administrative discretion of either of the parties within their respective areas of jurisdiction.
- 4.2 Any party to this Agreement may terminate this Agreement at any time by delivering three months written notice to the other party.

The officials of each party who shall be responsible for notices and the administration of this Agreement are:
