9. Endorsement of New Energy Vision for Canada

Resolution TC 147/11

It was Moved by Trustee Gary Steeves and Seconded:

That the Islands Trust Council endorse Tides Canada's April 2011 New Energy Vision for Canada, a vision of a Canada which by 2050 has largely moved from carbon-based to renewable energy sources, and a set of recommendations for a strategy that would deliver such a future.

The goals within Tides Canada's document are consistent with the mandate of the Islands Trust, the Policy Statement and previous Council resolutions on greenhouse gas reduction, ecosystem health, economic diversification and community stability. The intent of the New Energy Vision is to develop a low-carbon energy strategy that would strengthen both the environment and the economy.

Discussion ensued with some trustees voicing concern about inaccuracies in the report and the lack of local government support from major urban centres. Others felt that endorsing the report would send a clear message to the federal government that this is an issue that deserves national attention.

Resolution TC 148/11

It was Moved by Trustee Tony Law and Seconded:

To Amend the Motion as follows:

That the Islands Trust Council endorse Tides Canada's April 2011 New Energy Vision for Canada, as a first step for developing a vision of a Canada which by 2050 has largely moved from carbon-based to renewable energy sources, and a set of recommendations for a strategy that would deliver such a future.
